

APRIL 2026 MUSCULAR DYSTROPHY COMMUNITY NEWSLETTER

This newsletter is intended for U.S. residents. Individuals should always discuss questions about their medical care with their medical care provider.

GRAND CANYON

The team at Edgewise Therapeutics is excited for what's to come in 2026!

We are on track to wrap up the pivotal **GRAND CANYON** study in the fourth quarter of this year, with *44 individuals already completing the study as of March 2026*. Nearly all eligible participants (99%) from prior studies (including **ARCH**, **CANYON/GRAND CANYON**, and **DUNE**) have chosen to enroll in the **MESA** open-label extension study.

The Edgewise Team recently attended the **MDA Clinical and Scientific Conference in Orlando, Florida** and shared program updates in **Becker muscular dystrophy**.

COMMUNITY RESOURCES

What Becker Natural History Studies Tell Us About Becker Disease

On January 22, 2026 Edgewise led a Community Industry Update Webinar with the Muscular Dystrophy Association. Dr. Amit Sachdev from Michigan State University and Dr. Joanne Donovan, Edgewise Therapeutic's Chief

Medical Officer, discussed ongoing learnings from Becker natural history studies, which track how Becker disease progresses over time. The webinar highlighted new insights into Becker disease course and how these learnings can inform proactive Becker clinical care and therapy development for Becker. Scan the QR Code or [click here](#) to watch!

Save the Date for the Becker Education and Engagement Day on October 17-18, 2026. Events will be held in **Portland, Sacramento, St. Louis, Baltimore, and Orlando.**
